## Marmitek Power SI

Smart plug, 240V, 15A, 3450W, 2 USB, 1 socket, on/off manual & automatic, energy meter

This smart Wi-Fi plug enables you to switch devices on/off with your smartphone/tablet. All you need is this power plug, the Smart me app and a stable Wi-Fi network to get started. The handy thing about this power plug is that it is equipped with 2 USB outputs. Thus, with 1 product, you get 2 additional sockets to charge, for example, your phone or laptop. This smart plug is equipped with an energy meter. In the Smart me app, you can see how much energy is consumed by the connected devices. All your connected devices can be switched on and off simultaneously at the push of one button, or via the Smart me app. In the Smart me app, link one of our cameras or sensors to this Power SI and you can automatically switch a device on or off when motion is detected. The app enables you to indicate whether a device should be switched on or off at a specific time. It's plug and play!

- Plug & play: no gateway or software required.
- Use the Smart me app to set timings for switching on/off automatically.
- Use the Smart me app to allow different Marmitek smart products to communicate with each other.
- Possible to turn on/off manually.
- Energy meter to monitor power consumption.
- Including 2 USB ports to charge/power your (mobile) devices.
- Switch on/off your electrical devices from anywhere with the Marmitek Smart me app or you voice.
- Compatible with Amazon Alexa & Google Assistant.
